

Case Study – Wire Wizards

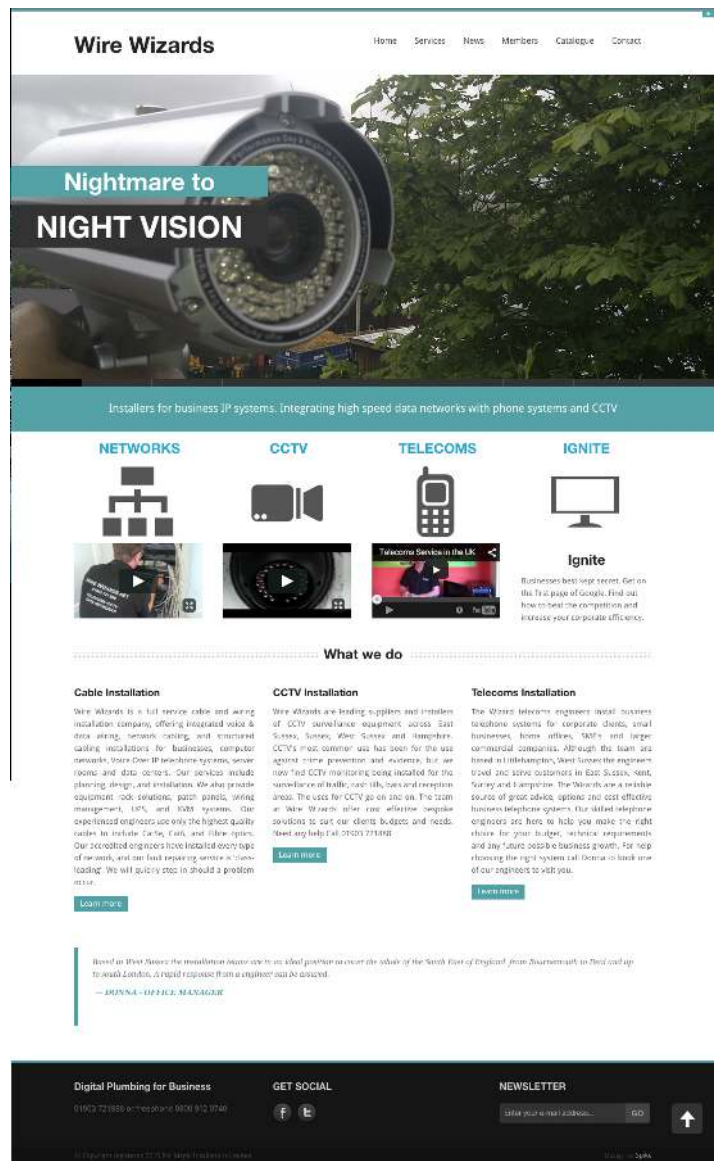

Problem:

customer had problems with integration new layout of his website to business catalyst engine. The videos were not working.

BEFORE

AFTER

Solution:

Making website **responsive**, it's adapt to different screens so it display good at any devices.

Compression of images to save weight and improve loading of the pages. Integrating website with **Business Catalyst** engine so it is very easy to change a content.

JavaScript bug fixing.

Making videos working.

```
$('.circle').mosaic({
  opacity : 0.8 //Opacity for overlay (0-1)
});
$('.fade').mosaic();
$('.fade').hover(function () {
  $(this).find('.mosaic-overlay').addClass('hover');
});
})(jQuery, this);
```
